HUERTA INSULT TO FLAG IS AVENGED BY REBELS

Colonel of Federal Army Pays With His Life for Impudent Arrest of Americans

of Americans

BY JOHN K. WINKLER,
Special Correspondent With the Constitutionalist Army.

Tampico, May 27 (delay in transmission).—The Huerta insult to the American flag at Tampico has been avenged. Adolpho Hinijosa, colonel in the Federal army, has paid with his life for his impudent arrest of the paymaster of the United States Dolphin on that sultry April morning, six weeks ago. It was this incident that caused Admiral Mayo's demand for a public apology, the refusal of which led to the occupation of Vera Cruz, the loss of nineteen young American lives, and the present diplomatic embroglio.

Two Constitutionalist officers and a

leave it dead."

Reports are meagre, but it appears that after that pursuit of ten days, Nafarate and Larraga, both of whom are noted for their fearlessness, cornered the fleeing Federal in the jungle at Tamazunchale, near the triple border line of the States of San Luis Potost, Vera Cruz and Hidalgo. Less than half a company of Hindjosa's regiment, which was the flower of Zaragosa's army, were with him. These offered no resistance to the superior rebel force. Hindjosa wore no uniform, but he did not deny his identity. He made no effort to pledd for mercy, but folded his arms, gritted his teeth and received volleys from a double firing squad. One of his own men, a private, was permitted to give him the so-called "mercy shot." Hindjosa's men, all privates, were not taken captive, but were permitted to bury their colonel.

indexit that immediate and irreparable in the property will result to property or a property right of the applicant before notice could be served or hearing had thereon. The bill provides that every injunction or restraining order must be specific in terms, thus outlawing the ro-called "blanket injunction."

In labor disputes injunctions would be forbidden by the bill "unless necessary to prevent irreparable injury to property or a property right." for which injury there is no adequate remedy at law. It would also forbid injunctions against striking, peaceful picketing, primary boycotts, the payment of strike benefits or the peaceful assemblage of strikers, and contains a provision legalizing such acts.

PROVISION AGAINST tract to supply gas of an equal standard with that of Richmond. G. B. White in questioning Mr. Knowles showed that, although the terms of the contract made by the city when Manchester was annexed called for the installation of city gas there in two years, it was not completed until two years and a half had chapsed. This delay was accounted for by Mr. Knowles by the fact that it was impossible to lay the pipes and install the system until the new bridge had been completed and the pipes could be The holding companies' provision of the act would prevent one company from acquiring any stock in another corporation "where the effect of such acquisition is to eliminate or substantially lessen competition between the corporations, or to create a monopoly." The provision exempts, however, corporations purchasing stock solely for investment, and not attempting to lessen competition.

The interlocking directorates upon carried across the river. intendent of the Cas Works said that he would recommend that the city take charge of the plant in Highland Park and the other property, paying the cor-poration for it. He said that the scale of prices for gas in the city would remain the same for that section after annexation.

investment, and not attempting to lessen competition.

The interlocking directorates prohibition in the bill is an effort to reach all corporations, railroads and banks over which the Federal government has jurisdiction. It prohibits a director in a concern dealing in supplies for common carriers, from being a director in such common carriers; prohibits a director in a bank from being a director in a common carrier for which the bank acts as an agent or underwriters; directors in private or State banks, having deposits, capital, surplus and undivided profits of more than \$2,500,000, are ineligible as directors in banks in the national system; and make ineligible as mational bank directors the directors of private and State banks in the same city or town. The provision becomes effective two years after the passage of the law, and exempts the directors of mutual savincs banks.

The bill revises the proceedings in contempt of court cases. In contempts to obstruct the administration of justice," the bill provides the machinery for a trial by jury as in criminal practice. As to direct contempts the proceedure is left unchanged.
